

Joe Hicks asked why an easement granted to the county for the New Fork Lake road in 1972 had been relinquished by the county in 1973. Research showed that the description on the easement did not match the actual location of the road. Mr. Hicks and the commissioners also discussed a BLM easement granted to the county for lands adjacent to the New Fork River Subdivision. If the road easement is not used it must be relinquished.

Commissioner Tomassi moved to accept an amended audit proposal, received of Mariano & Mortensen, P.C., of not to exceed \$12,000 for fiscal year 1984 and not to exceed \$13,000 for fiscal year 1985. Motion seconded by Commissioner Johnston and carried.

The Commissioners reviewed the return and report of Bill Alexander, Ross Calvert and Harold Thompson as duly appointed road viewers for a private road application filed by Bar Flying V Ranch Company. The report recommended that the private road be established over the existing road as described in the application, over private lands owned by Eugene R. and Stella L. Taylor, measuring 30 feet in width and that there will be no costs in locating such road. The report stated that no gates or cattle guards are necessary and that no damages should be assessed to any aggrieved parties. The commissioners signed an order confirming and declaring establishment of the private road with the stipulation that it shall not be deemed to be finally established until the applicant has filed in the office of the county clerk a certified plat depicting the course and width of the private road. After said plat is filed Eugene and Stella Taylor will have 30 days in which to file an appeal on the establishment of the road.
