NOTICE OF ANNUAL ASSESMENT WORK

We have completed the following work. May 7-8, 14-15, we established the claim stakes and the corner stakes. May 28, 29 and 30th we started to repair Forest and B.L.M. roads.

June 5th we worked 3/4 of the day repairing forest drift fence and gate. We worked on the assesment hole on Lode Claim week end of June 11 and 12. The week end of the 18th and 19th, 25th and 26th of June, we worked on placer assesment work. June 26 through July 5th we did the following;

We worked on the placer assessment and repaired wash outs in road.

On the week end of 9 and 10 worked repairing "check dams" on Forest Service Road.

On the 7th of August 14 and 21 we did the following work:

We laid a six inch pipe to eliminate a bog that had closed the Forest Service road. On top of the pipe we used the tailings from the dredge to repair it.

This completes our assessment work for 1988 which was completed by August 15.

August 27, 1989

We have completed the following work in 1989:

May 27, 28, & 29 we put in metal claim stakes replacing the wooden ones.

June 3,4,10-11, & 17,18 we repaired the forest service fence and took gravel and began to repair the road.

July 1-10, 15,16, 22,23, 29,30 we finished repairing the road.

August 5 and 6 we dug assessment hole. We finished the hole the weekend of August 12 and 13. We filled in the hole and replaced the topsoil and seeded with natural grass seed from surrounding grasses.

August 19, 20, 26, 27, we built check dams with the rock from the claims.

That completes assessment work for the year 1989.

* Federal law requires that no less than $100 worth of labor must be performed or improvements made on a mining claim annually to hold the possessory right to the claim. The period within which the work is required to be done commences at 12:00 o'clock Meridian on the first day of September succeeding the date of location of the claim.

Oregon law [ORS 517.210] requires that proof of the performance of labor or making of improvements must be made by affidavit filed in the mining records of the county in which the mining claim is situated, within 30 days after the performance of labor or making of improvements.

IMPORTANT NOTICE: A mining claim is deemed abandoned under 43 U.S. Code Sec. 1744 unless a copy of the official record of an affidavit of assessment work performed, a notice of intention to hold a mining claim, or a detailed report under 30 U.S. Code Sec. 28-1 is also filed annually for recordation with the state office of the Bureau of Land Management on or before December 30th of each year following the calendar year in which the claim was located. Because BLM recordation regulations change periodically, you should obtain recordation regulations from your local BLM office to determine effective requirements for mining claims. Additional regulations of the BLM and Forest Service may apply to the conducting of mining operations on national forest and BLM administered lands.

We have completed the following work in 1992

May twenty-ninth, thirtieth, thirty-first we cleared fallen trees from the Forest Service and Bureau of Land Management roads. We also repair ed three damaged gates on Forest Service fences.

July first to the nineteenth we used waste sand and gravel to repair and improve access roads to and on our claims. We also at this time picked up all liter that was lying along the road.

August first and second, eighth and ninth, and the fifteenth and sixteenth we spent two hours a day doing road work.

August twenty-second and twenty-third we took the larger rocks from the claims and built more check dams on the Forest Service road to help prevent erosion.

This completes assessment work for the year of 1992. We intend to work the claims the same way in 1993. Enclosed is our check for $45.00.

August ~~23~~ 15, 1993

We have completed the following work in 1993

May 29th, 30th and 31st, we cleared fallen trees from the Forest Service and Bureau of Land Management roads, and repaired one damaged gate on Forest Service fences.

June 22nd and 23rd, we took the larger rocks from the claims and built more check dams on the Forest Service road to help prevent erosion.

July 10th, 19th, 26th and 27th we used waste sand and gravel to repair and improve access roads to and on our claims. We also at this time picked up all litter that was lying along the road.

August 1st, 2nd 8th and 9th, we spent two hours a day doing road work and building more check dams.

This completes assessment work for the year of 1993. We intend to work the claims the same way in 1994. Enclosed is our check for $45.00.

AFFIDAVIT FOR OPEN CUT DISCOVERY WORK

The undersigned, being first duly sworn, deposes and says: That he is _____ the discoverer, locator and an owner of the above mining claim; That on such claim there was made, as a discovery shaft, an open cut, which cut the vein ten feet in length, and with a face ten feet in height; and in the course thereof, deposits of valuable minerals sufficient in quality to justify a reasonably prudent man in expending money and effort in further exploration and development were cut and exposed.

The date of such work was _____.
It was performed by (myself) _____.
The location of such work within the claim is as described in the foregoing Notice and Certificate.
The mineral discovered was radio-active in nature, being uranium and other fissionable source materials.

IN TESTIMONY WHEREOF, I have hereunto set my hand this _____ day of _____, 19____.

Subscribed in my presence and sworn to before me the day and year last aforesaid.

re: Placer Claim # 198020; T39N R112W sec 17, NE 1/4

Dear Byron:

After reviewing your operating plan dated 24 August, 1998, and received at this office on 27 August, 1998, I have determined that no additional documentation or environmental analysis is required. Please keep in mind that your claim is located in an area that supports both grizzly and black bears. You should take proper sanitation and food storage precautions to ensure that bears are not attracted to your camp and rewarded with food. Hang food, garbage, and scented toiletries at least 10 feet above the ground or store in bear resistant containers (food tubes). Do not leave such items unattended in tents or out in the open. We also recommend that people carry pepper spray when in the backcountry in case they encounter a bear. Pepper spray is non-lethal and has been shown to be more effective than firearms in stopping charging bears. Please contact our wildlife biologist, Adrian Villaruz at 307-739-5413 if you have any questions about bear safety or your mining claim.

Sincerely,

SCOTT G. FITZWILLIAMS
