

the lessor or by registered letter addressed to the lessor at his last known address or deposited to the lessor's credit in the State bank of Big Piney or its successors or assigns unless or until the lessor shall designate in writing to the lessee some other address or bank or trust company as depository, on the first of each month.

The lessee shall have the right at any time to release from the operation of this lease any part or portion of the lands hereinbefore described by giving to the lessor notice thereof in writing, and from the date of such notice, the lessor and lessee shall each be released from all of the terms and provisions of this lease so far as the same affects such premises so released, but as to the portion of said land not so released this lease shall remain in full force and effect.

No well shall be drilled nearer than one hundred feet to any building now on said land without the written consent of the lessor.

In the event a dry hole or a well not producing oil, gas or other mineral product in commercial quantities, is drilled, or a well ceases to produce in commercial quantities, the lessee shall have eighteen months from the date of the completion of said dry hole or said well or from the date any well ceases to produce oil, gas or other mineral product in commercial quantities, in which to continue operations on the above land, during which time no royalties shall be due or payable and this lease shall be in full force and effect for said time as fully as if said royalties had been paid or a well, producing oil, gas or other mineral product brought in or in operation.

If the test well is a paying well lessee agrees within six months from the completion of said well to commence a second well at a location to be selected within the five mile radius.

And if oil and gas are encountered in commercial paying quantities and the well is a paying well then lessee shall continue to develop such lands on oil structure with due diligence subject to delays such as unavoidable breakage in machinery or severe weather or winter or Acts of Providence where it would make it unprofitable to continue for a certain period of time, then the lessee shall not be obligated to continue drilling until more favorable conditions prevail but in no event whatsoever shall the lessee discontinue drilling this first test well for a continuous period of more than six months at one time without the written consent of the lessor.

No change in ownership of said land or the rentals or royalties due hereunder shall affect or bind the lessee until such purchaser shall have furnished lessee proper certificate of ownership showing as a part thereof the title claimed by the purchaser.

Lessee shall pay damages to growing crops on said lands. When requested by the lessor, the lessee shall bury its pipe lines below plow depth. Lessee shall have the right at any time to remove all pipe, machinery, and fixtures placed on said premises within one year from the annulment of this lease.

And the lessor further agrees that the lessee may pay any overdue encumbrance on said premises or any part thereof, the foreclosure of which might interfere with the rights granted by this indenture, and apply so much of the royalties then due or thereafter to become due under this lease to the repayment of the moneys so advanced, with interest thereon at the rate of seven per cent (7%) per annum. If the said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein provided for shall be paid to lessor only in the proportion which his interest bears to the whole and undivided fee.

The lessee agrees to use due diligence in the commencement of a test well on any of the lands in the community wherein the lands herein described are situated and within a radius of five miles; the delivery of supplies, tools or equipment to begin on or before the 15th day of October, 1926.

Lessee agrees that this test well shall be drilled to a depth of 2000 feet unless oil or gas are encountered in commercial paying quantities at a lesser depth which shall be full satisfaction of all obligations of lessee.

Said owners represent and warrant that they are the owners of the above lands, and that they have not entered into any agreement with any other person or persons, firm or corporation affecting the lands above described, that no other person or persons, firm or corporation has acquired any rights to said lands; and the party of the first part agrees to protect the party of the second part against claims or rights asserted by other persons in or to said lands, heretofore described.

If the estate of either party hereto is assigned (and the right or privilege of assigning in whole, or in part, is expressly allowed) the covenants hereof shall extend to and become binding upon their heirs, executors, administrators, successors or assigns, but no change in ownership of the land or assignment or royalties shall be binding on the lessee until after the lessee has been furnished with such written transfer or assignment or a true copy thereof; and it is hereby agreed that in the event this lease shall be assigned by the lessee as to a part or parts of the above described lands and the assignee or assignees of such part or parts shall make default in the payment of the proportionate part of the rents or royalties due from him or them, such default shall not operate to defeat or affect this lease in so far as it covers a part or parts of said lands upon which the said lessee or any assignee thereof shall have made due payment of said rental.

IN WITNESS WHEREOF we have hereunto set our hands and seals the day and date first written above.

Witness:
