

(12) If lessee at any time shall include the lands covered by this lease in a unit or cooperative operating agreement, lessee shall have the right to include lessor's royalty interest in said agreement and thereupon said agreement shall exclusively control the drilling, operating and producing of said lands, anything to the contrary in this lease notwithstanding. If the lands or leases included in said agreement are to be drilled and operated as a unit and oil or gas shall be produced in paying quantities, then such part of said production allocated to this lease under said agreement shall be divided seven-eighths (7/8) to the lessee and one-eighth (1/8) to the lessor, in lieu of the royalty payments provided by paragraph one hereof. Should production be found on any of the tracts covered by said agreement, this lease shall remain in force as long as oil, or gas is or can be produced from such tracts, or any of them. If this lease shall be unitized with other leases or tracts and if production shall be found on any of them, lessee's rental obligations hereunder shall cease. Any agreement made by lessee under this paragraph shall be in writing and lessee shall furnish lessor with a copy of the signed agreement.

(13) All exploratory and mining grants, or permits of every nature, including core-drilling, use of torsion-balance, magnetometer, seismograph, or other geophysical instruments for determining sub-surface conditions are herewith granted to lessee, exclusively.

(14) This lease and all its terms, conditions, and stipulations, shall extend to and be binding upon all heirs, devisees, representatives, successors or assigns of said lessor or lessee.
