

tions as to the acreage surrendered, and thereafter the rentals payable hereunder shall be reduced in the proportion that the acreage covered hereby is reduced by said release or releases.

5. Should any well drilled on the above described land or on acreage pooled therewith during the primary term before production is obtained be a dry hole, or should production be obtained during the primary term and thereafter cease, then and in either event, if operations for drilling an additional well are not commenced or operations for reworking an old well are not pursued on said land on or before the first rental paying date next succeeding the cessation of production or drilling or reworking on said well or wells, then this lease shall terminate unless Lessee, on or before said date, shall resume the payment of rentals. Upon resumption of the payment of rentals, Section 4 governing the payment of rentals, shall continue in force just as though there had been no interruption in the rental payments. If during the last year of the primary term and prior to the discovery of oil or gas on said land or on acreage pooled therewith, Lessee should drill a dry hole thereon, or if after discovery of oil or gas before or during the last year of the primary term the production thereof should cease during the last year of said term from any cause, no rental payment or operations are necessary in order to keep the lease in force during the remainder of the primary term. If, at the expiration of the primary term, lessee is conducting operations for drilling a new well or reworking an old well, or if, after the expiration of the primary term, production on this lease shall cease, this lease nevertheless shall continue as long as said operations continue or additional operations are had, which additional operations shall be deemed to be had where not more than sixty (60) days elapse between abandonment of operations on one well and commencement of operations on another well, and if production is discovered, this lease shall continue as long thereafter as oil or gas is produced and as long as additional operations are had.

6. In the event Lessee encounters water in artesian quantities in any core hole or well drilled on the leased premises and before the abandonment of said well and removal of casing necessary for the operation of said core hole or well, as a water well, the Lessee shall notify Lessor, in writing, to elect within thirty (30) days after receipt of notice whether Lessor will take over said hole or well and retain such casing or suffer the same to be removed. The cost of the casing shall be the salvage value thereof and shall be set out in said notice. Unless the said Lessor shall within said period of 30 days elect to purchase said casing for the consideration stated within (15) days thereafter, pay the cost thereof, the Lessee may remove the same and abandon said core hole or well. In the event Lessor elects to purchase the casing in any well to be used as a water well as herein set out the Lessor shall secure for Lessee its release concerning liability for subsequent abandonment, plugging or other governmental authority requirements, from such authority.

7. Lessee shall have the right at any time without Lessor's consent to surrender all or any portion of the leased premises and be relieved of all obligation as to the acreage surrendered. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipe lines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land without Lessor's consent.

8. The rights of either party hereunder may be assigned, in whole or in part, and the provisions hereof shall extend to the heirs, successors and assigns of the parties hereto, but no change or division in ownership of the land, rentals, or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee. No change in the ownership of the land, or any interest therein, shall be binding on Lessee until Lessee shall be furnished with a certified copy of all recorded instruments, all court proceedings and all other necessary evidence of any transfer, inheritance, or sale of said rights. In event of the assignment of this lease as to a segregated portion of said land, the rentals payable hereunder shall be apportionable among the several leasehold owners ratably according to the surface area of each, and default in rental payment by one shall not affect the rights of other leasehold owners hereunder. In case Lessee assigns this lease, in whole or in part, Lessee shall be relieved of all obligations with respect to the assigned portion or portions arising subsequent to the date of assignment.

9. All express and implied covenants of this lease, both before and after production is obtained upon the leased premises, shall be subject to all Federal and State laws, executive orders, rules and regulations, and notwithstanding anything herein to the contrary, this lease shall not expire, terminate or be forfeited in whole or in part, nor shall Lessee be liable for damages for failure to comply with any of said covenants so long as or if compliance therewith is hindered, delayed or prevented by such law, order, rule or regulation. If drilling operations or compliance with the provisions of this lease both expressed and implied, is hindered, delayed or prevented by reason of any such law, order, rule or regulation at the expiration of the primary term hereof, the primary term shall be and the same is hereby extended for the full term of such hindrance, delay or prevention and for a period of one (1) year after such law, order, rule or regulation causing or resulting in the delay, hindrance or prevention has as to the lands herein leased become wholly ineffective. Prior to the discovery of oil, gas or other mineral upon the leased premises the extension herein granted shall be ineffective unless Lessee shall, at or before the expiration of the primary term and during the period of such hindrance, delay or prevention, continue to pay or tender the annual delay rentals hereinabove mentioned as to all lands then subject to this lease on each anniversary rental paying date as the same become due and payable or until drilling operations are commenced or production of oil, gas or other mineral is obtained in accordance with the other provisions of this lease and the payment or tender of such rentals at such times shall have the same force and effect as rental payments paid or tendered during the primary term hereinabove mentioned. If rental payments have been suspended under the terms of this lease by reason of the commencement of operations for drilling or on account of the production of oil, gas or other minerals prior to the time Lessee is hindered, delayed or prevented by any such law, order, rule or regulation, Lessee may resume the payment or tender of the annual delay rental on the rental date next ensuing after Lessee has been hindered, delayed or prevented from complying with provisions of this lease as aforesaid and the resumption of the payment of delay rentals shall have the same force and effect as though rentals had been continuously paid on each rental paying date, and by continuing such rental payments Lessee may extend this lease beyond the primary term for the full period hereinabove mentioned.
