

1 and maintain such fire tools at its headquarters or at the
2 appropriate location on the unit area as are deemed necessary
3 by such representative.

4 (c) In the location, design, construction and maintenance of
5 all authorized works, buildings, plants, waterways, roads,
6 telegraph or telephone lines, pipelines, reservoirs, tanks,
7 pumping stations, or other structures or clearance, the Unit
8 Operator shall do all things reasonably necessary to prevent
9 or reduce to the fullest extent scarring and erosion of the land,
10 pollution of the water resources and any damage to the water-
11 shed. Where construction, operation, or maintenance of any
12 of the facilities on or connected with this unit agreement
13 causes damage to the watershed or pollution of the water
14 resources, the Unit Operator agrees to repair such damage and
15 to take such corrective measures to prevent further pollution
16 or damage to the watershed as are deemed necessary by the
17 authorized representative of the Secretary of Agriculture.

18 (d) To pay the lessor (permitter) or his tenant or the surface
19 owner or his tenant, as the case may be, for any and all
20 damages to or destruction of property caused by unit operations
21 hereunder; to save and hold the lessor (permitter) or the surface
22 owner or their tenants harmless from all damage or claims
23 for damage to persons or property resulting from unit opera-
24 tions under the unit agreement.

25 (e) To recognize existing uses and commitments, in the form
26 of Department of Agriculture grazing, timber cutting, and
27 special use permits, water developments, ditch, road, trail,
28 pipeline, telephone line, and fence rights-of-way and other
29 similar improvements, and to conduct its operations so as to
30 interfere as little as possible with the rights and privileges
31 granted by these permits or with other existing uses.
