

they traversed restored in such a manner that revegetation will be encouraged. All roads constructed for operational purposes are to be considered as private roads and the erection of signs, locked gates, or other devices that may be required, at the discretion of the Supervisor, to discourage or prevent their use by the public shall be constructed and maintained by the Unit Operator.

(4) To protect the scenic and aesthetic values of roadsides, water-fronts and recreation area zones as far as possible consistent with the authorized use in connection with construction, operation and maintenance facilities.

(5) To conduct operations in a manner that will offer the least possible disturbance to wildlife on or adjacent to the unit area; to exercise no methods of control or interference with such wildlife without authority first obtained from the authorized representative of the Secretary of the Interior and/or the State Game and Fish Commission; to make no claim against the Government or the State on account of damage by such wildlife to improvements placed on the unit area.

(6) To observe and comply with all State and Federal laws and regulations relating to wildlife and to take such action as is necessary to assure observation and compliance with these laws and regulations by Unit Operator's employees and agents.

As to any lands within the Cache Creek Municipal Watershed, the Unit Operator will comply with the following additional stipulation:

(7) To comply with plans heretofore made through agreement with the Forest Service and the Town Council of Jackson, Wyoming, for the protection from pollution of the municipal water during the term of this Unit Agreement or any extension thereof.

35. SURFACE RESOURCE STIPULATION. The Unit Operator will not undertake any drilling, construction of roads or pipelines, or any other activity which involves removal of vegetation until a plan of construction and development has been approved by the Forest Service representative. Such approval may be conditioned on reasonable requirements to prevent erosion, water pollution, or damage to surface resources and to provide for restoration of the surface.
