

OIL AND GAS LEASE

AGREEMENT, Made and entered into this 28th day of JUNE, 1969
 by and between THE FIRST NATIONAL BANK AND TRUST COMPANY OF WYOMING; FREDERIC W. MARBLE
AND HIS WIFE, LILLIAN W. MARBLE; and LOIS FRANCES LOTT, (formerly Lois Frances Cobb)
AND HER HUSBAND, DEWITT LOTT; Box 1768, Cheyenne, Wyo; hereinafter called lessor (whether one or more) and
CHANDLER & ASSOCIATES, INC., 1401 Denver Club Building, Denver, Colo., hereinafter called lessee.

WITNESSETH, That the said lessor, for and in consideration of ten and more Dollars (\$10.00),
 cash in hand paid, receipt of which is hereby acknowledged and of the covenants and agreements hereinafter contained on the part of lessee to
 be paid, kept and performed, has granted, demised, leased, and let and by these presents does grant, demise, lease and let unto the said lessee,
 its successors and assigns for the sole and only purposes of surveying by geological, geophysical and all other methods, mining and operating
 for oil and gas, and laying pipe lines, and building tanks, power stations and structures thereon to produce, save and take care of said products,
 all that certain tract of land, together with any reversionary rights therein, situate in the County of Sublette
 State of Wyoming, described as follows, to wit:

TOWNSHIP 29 NORTH, RANGE 111 WEST, 6th P.M.

Section 28: Lots 2 (20.22 ac); 3 (31.98 ac); 4 (38.46 ac);

8 (22.27 ac); 9 (36.70 ac); S $\frac{1}{2}$ NW $\frac{1}{4}$; N $\frac{1}{2}$ SW $\frac{1}{4}$; SW $\frac{1}{4}$ SW $\frac{1}{4}$

Plus any land added to the above riparian lands
 through accretion and containing 349.03 acres, more or less.

It is agreed that this lease shall remain in force for a term of Three (3) years from date, and as long thereafter as oil or gas,
 or either of them, is produced from said land by the lessee, its successors and assigns.

In consideration of the premises the said lessee covenants and agrees:

First. The lessee shall deliver to the credit of lessor as royalty, free of cost in the pipe line to which lessee may connect its wells, the equal
 one-eighth part of all oil produced and saved from the leased premises, or, at lessee's option, may buy or sell such one-eighth royalty and pay lessor
 the market price for oil of like grade and gravity prevailing in the field on the day such oil is run into pipe lines or into storage tanks.

Second. To pay lessor one-eighth ($\frac{1}{8}$) of the proceeds received for gas sold from each well where gas only is found, or the market value at
 the well of such gas used off the premises, and lessor to have gas free of cost from any well for all stoves and all inside lights in the principal dwelling
 house on such land during the same time by making his own connections with the well at his own risk and expense.

Third. To pay lessor one-eighth ($\frac{1}{8}$) of the market value at the well for gas produced from any oil well and used off the premises, or for
 the manufacture of casing-head gasoline or dry commercial gas.

If no well be commenced on said land on or before the 28th day of June, 1970, this lease shall terminate
 as to both parties, unless the lessee on or before that date shall pay or tender to the lessor or to the lessor's credit in the First National
Bank and Trust Company of Wyoming, Bank at Box 1768, Cheyenne, Wyoming

or its successor or successors, or any bank with which it may be merged, or consolidated, or which succeeds to its business or assets or any part
 thereof, by purchase or otherwise, which shall continue as the depository regardless of changes in the ownership of the said land, the sum of
Eight Hundred Seventy Two and 58/100 DOLLARS,

which shall operate as a rental and cover the privilege of deferring the commencement of a well for twelve months from said date. In like manner
 and upon like payments or tenders the commencement of a well may be further deferred for like periods of the same number of months successively.
 And it is understood and agreed that the consideration first recited herein, the down payment, covers not only the privileges granted to the date when
 said first rental is payable as aforesaid, but also the lessee's option of extending that period as aforesaid, and any and all other rights conferred. Rentals
 may be paid by check or draft and may be remitted by mail. Mailing of rental on or before the rental-paying date shall be deemed a timely tender
 thereof and shall preclude termination of this lease. Notwithstanding the death of the lessor, or his successor in interest, the payment or tender of
 rentals in the manner provided above shall be binding on the heirs, devisees, executors and administrators of such person.

Should any well drilled on the land above described be a dry hole or cease to produce and there are no other producing well or wells on the
 land or drilling operations are not being conducted thereon, then and in that event if a well is not commenced before the next ensuing rental-paying
 date after the expiration of ninety (90) days from the date of such dry hole or cessation of production, this lease shall terminate as to both parties,
 unless the lessee, on or before the rental-paying date next ensuing after the expiration of ninety (90) days from the date of the completion of the dry
 hole or cessation of production, shall resume the payment of rentals in the same amount and in the same manner as hereinbefore provided, and it is
 agreed upon resumption of the payment of rentals, as above provided, the last preceding paragraph hereof, governing the payment of rentals and the
 effect thereof, shall continue in force as though there had been no interruption in the rental payment. If a dry hole should be drilled or if production
 ceases at any time subsequent to ninety (90) days prior to the beginning of the last year of the primary term, no rental payment or operations are
 necessary in order to keep the lease in force during the remainder of the primary term.

If at any time, either before or after the expiration of the primary term of this lease, there is any gas well on the lands covered hereby, or on
 other lands with which said lands are pooled or unitized, which is capable of producing in paying quantities, but which is shut-in either before or
 after production therefrom, and the production therefrom is not being sold or used, lessee agrees to pay or tender to the mineral owners in the depository
 bank named in the lease, as royalty, a sum equal to the amount of delay rentals payable under this lease. Such payments shall be made on or before
 the shut-in royalty payment date, as herein defined, next accruing after the expiration of ninety (90) days from the date the well was shut-in, unless prior
 to such date gas from the well is produced and sold or used. In like manner, on or before each succeeding shut-in royalty payment date while such gas
 well remains shut-in, lessee shall make payment of shut-in gas royalty in the same amount and manner. A shut-in gas well capable of producing in paying
 quantities shall be considered under all provisions of this lease as a producing well and this lease shall be in force and effect in like manner as though
 the gas therefrom were actually being produced and sold or used. The term "gas well" shall include wells capable of producing natural gas, condensate,
 distillate, or any gaseous substance, and wells classified as gas wells by any governmental authority. The term "shut-in royalty payment date" shall
 mean any rental-paying date of this lease if within the primary term, or any subsequent anniversary thereof, if after the primary term, or any anniversary
 date of this lease if no rental-paying date is specified herein.

If said lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals
 herein provided shall be paid the lessor only in the proportion which his interest bears to the whole and undivided fee. However, such rentals shall be
 increased at the next succeeding rental anniversary after lessee has been notified of any reversion having occurred to cover the interest so acquired.

Lessee shall have the right to use, free of cost, gas, oil and water produced on said land for its operations thereon, except water from wells
 and reservoirs of lessor. Lessee shall have the right at any time to remove all machinery and fixtures placed on said premises, including the right
 to draw and remove casing.

Lessee shall pay for damages caused by its operations to growing crops on said lands. When requested by the lessor, lessee shall bury his pipe lines
 below plow depth. No well shall be drilled nearer than 200 feet to the house or barn now on said premises, without the written consent of the lessor.

Lessee shall have the right to drill to completion with reasonable diligence and dispatch (1) any well commenced within the term of this lease
 and (2) any well commenced before the completion of a well which has been commenced within such term. If oil and gas or either of them be found in
 paying quantities in any such well, this lease shall continue and be in force with like effect as if such well had been completed within the term of years
 herein first mentioned.

Lessee is hereby granted the right and power to pool or combine the acreage covered by this lease, or any portion thereof, with other land, lease
 or leases in the vicinity thereof at any time and from time to time, whether before or after production, when in Lessee's judgment it is necessary or ad-
 visable to do so for the prevention of waste and the conservation and greatest ultimate recovery of oil or gas. Such pooling shall be into a unit or units not
 exceeding in area the acreage prescribed or required in any Federal or State law, order, rule or regulation for the drilling or operation of one well, or for
 obtaining the maximum allowable production from one well, or 40 acres each for the production of oil, or 640 acres each for the production of gas,
 whichever is the larger, plus a tolerance over the maximum area of 40 acres for the production of oil or 640 acres for the production of gas to include
 additional acreage in any irregular governmental subdivision or lot or portion thereof. Such pooling shall be effected by Lessee's executing and filing
 in the office where this lease is recorded an instrument identifying and describing the pooled acreage. The production of pooled substances and de-
 velopment and operation on any portion of a unit so pooled, including the commencement, drilling, completion and operation of a well thereon, shall
 be considered and construed, and shall have the same effect, except for the payment of royalty, as production, development and operation on the leased
 premises under the terms of this lease. The royalties herein provided shall accrue and be paid to Lessor on pooled substances produced from any unit in
 the proportion, but only in the proportion, that Lessor's acreage interest in the land covered hereby and placed in the unit bears to the total acreage in
 the land placed in such unit.

If the estate of either party hereto is assigned, and the privilege of assigning in whole or in part is expressly allowed, the covenants hereof shall
 extend to their heirs, executors, administrators, successors or assigns, but no change in the ownership of the land or assignment of rentals or royalties
 shall be binding on the lessee until after the lessee has been furnished with a written transfer or assignment or a certified copy thereof; and it is hereby
 agreed in the event this lease shall be assigned as to a part or parts of the above described lands and the assignee or assignees of such part or parts shall
 fail or make default in the payment of the proportionate part of the rents due from him or them, such default shall not operate to defeat or affect this
 lease in so far as it covers a part or parts of said lands which the said lessee or any assignee thereof shall make due payment of said rentals. An assign-
 ment of this lease, in whole or in part, shall as to the extent of such assignment relieve and discharge the lessee of all obligations hereunder.
