

substances subject to disposition under the general mining laws, the general mineral leasing laws, the Materials Act and the Geothermal Steam Act, and to it, or persons authorized by it, the right to prospect for, mine and remove the minerals from the same under applicable law and such regulations as the Secretary of the Interior may prescribe. This includes all necessary and incidental activities conducted in accordance with the provisions of the mining, geothermal and minerals leasing, and material disposal laws in effect at the time such activities are undertaken, including, without limitation, necessary access and exit rights, all drilling, underground, open pit or surface mining operations, storage and transportation facilities deemed necessary and authorized under law and implementing regulations; and

SUBJECT TO those rights for power transmission line purposes granted to PacifiCorp, its successors or assigns, by Right-of-way Serial No. WYW 036810 under the Act of February 15, 1901, as amended (formerly 43 U.S.C. 959).

Pursuant to the authority contained in Section 4 of Executive Order 11990 dated May 24, 1977 (42 FR 26961), and the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1713, 1718, 1719, this patent is subject to a permanent restriction which constitutes a covenant running with the land for the purpose of protecting and preserving the wetland area in and along Pole Creek. The land may
