

k. "Permit" means written authorization issued by the Zoning Administrator or County Sanitarian, duly executed which authorizes the permittee to construct, install, or modify the facilities as set forth in these regulations.

l. "Privy" means a covered pit into which only urine and fecal material are discharged for final disposal by leaching into the surrounding soil or by hauling to an approved disposal site. Graywater or toilet carriage water may not be discharged into a privy.

m. "Pump Tank" means a tank in which the dosing pumps or syphons are installed.

n. "Seasonal high groundwater table" is the highest elevation reached by the groundwater during the wet season of the year (usually spring or early summer).

o. "Septic tank" means a liquid-tight receptacle which receives for storage and digestion, raw sewage from a building sewer, and which has been designed and constructed so as to retain the solids and to allow the liquids to discharge through a secondary system of piping into a disposal area.

p. "Small wastewater system" means any sewerage system, disposal system or treatment works having simple hydrologic and engineering needs which is intended for wastes originating from a single residential unit serving no more than four families or which distributes 2,000 gallons or less of domestic sewage per day.

Section 6. Prohibitions. No person shall, except when authorized by permit issued pursuant to these regulations:

a. Construct, install, or modify any small wastewater system.

b. Construct, install, or modify any small wastewater system in non-compliance with the terms and conditions of an issued permit;

c. Construct, install, or modify a small wastewater system with a permit that has expired or has been suspended or revoked.

d. Discharge wastes into any small wastewater system which is inconsistent with the type and or quantity of wastes for which the facility is designed.
